List N: Disinfectants for Use Against SARS-CoV-2

Other COVID-19 Resources

- [EPA's Coronavirus Site](#)
- [CDC's Coronavirus Disease 2019 Site](#)
- [CDC's Cleaning and Disinfection Recommendations for COVID-19](#)
- [NPIC 's COVID-19 Virus Factsheet](#)

List N includes products that meet EPA's criteria for use against SARS-CoV-2, the cause of COVID-19.

When purchasing a product, check if its **EPA registration number** is included on this list. If it is, you have a match and the product can be used against SARS-CoV-2. You can find this number on the product label - just look for the EPA Reg. No. These products may be marketed and sold under different brand names, but if they have the same EPA registration number, they are the same product.

This list includes products with emerging viral pathogen claims and those with human coronavirus claims. If a product with an emerging viral pathogen claim is not available, use a product with a coronavirus claim. If the product is listed as "N" under the Emerging Viral Pathogen Claim column, then it has a human coronavirus claim.

- [Frequently Asked Questions about List N: Disinfectants for Use Against SARS-CoV-2](#)
- [Emerging Viral Pathogen Claims for SARS-CoV-2: Submission Information for Registrants](#)

Note: Inclusion on this list does not constitute an endorsement by EPA. There may be additional disinfectants that meet the criteria for use against SARS-CoV-2. EPA will update this list with additional products as needed.

EPA Registration Number

Alternative brand names have the same EPA Reg. No. as the primary product.

The EPA Reg. No. of a primary product consists of two set of numbers separated by a hyphen, for example EPA Reg. No. 12345-12. The first set of numbers refers to the company identification number, and the second set of numbers following the hyphen represents the product number.

Formulation Type

DILUTABLE: Dilutable Liquid

RTU: Ready-To-Use

Emerging Viral Pathogen Claim?

If a product qualified for the Emerging Viral Pathogen Claim, it demonstrated efficacy against a harder-to-kill virus than the enveloped human coronavirus

List N: Products with Emerging Viral Pathogens AND Human Coronavirus claims for use against SARS-CoV-2

<u>EPA Registration Number</u>	Active Ingredient/s	Product Name	Company	Follow the disinfection directions and preparation for the following virus	Contact time (time surface should remain wet)	Formulation Type	<u>Emerging Viral Pathogen Claim?</u>	Date Added to List N
1677-129	Hydrogen Peroxide; Peroxyacetic Acid	COSA OXONIA ACTIVE	Ecolab Inc	Poliovirus	10 minutes	DILUTABLE	Y	03/03/2020
1677-226	Hydrogen Peroxide; Octanoic Acid; Peroxyacetic Acid	VIRASEPT	Ecolab Inc	Norovirus; Rhinovirus	4 minutes	RTU	Y	03/03/2020
